**CONSTRUCTION
TRACKS**

In today’s economy, good business means making your money go a long way. Camso’s goal is to create products that offer Lowest Operating Cost Solutions or LOCS. This is why we are committed to:

- Work closely with equipment owners and operators to ensure we understand the right product for each application
- Design and manufacture the most durable and reliable products available
- Offer our high performance line-up to optimize your productivity and machine performance
- Maximize product availability to increase uptime
- Give the best technical support and service in the industry
- Supply an industry leading non prorated warranty across all of the Camso track range

Find out more at camso.co or contact your authorized local distributor.

ENGINEERED TREAD PATTERNS

HXD

SD

Patented 3S internal metal core

- Prevents detracking
- Minimizes vibrations
- Improves ride quality

Enhanced high-tensile, rubber-sealed steel cables

- Cable corrosion protection
- Strengthens carcass

Curbshield technology with reinforced carcass edge

- Fortifies carcass protection
- Impedes catastrophic edge cuts
- Reduces internal components wear exposure

Premium rubber compound and extra thick carcass

- Impact and damage resistance
- Extends service life

Self cleaning tread design

- Promotes lug-void cleanout for maximum traction
- More traction in reverse driving

Optimized sprocket holes

- Reduces peak load on track and undercarriage parts; allows for sand and debris to pass through with ease

*Check with your dealer for best choice for your application

ENGINEERED TREAD PATTERNS

Single-cure technology

- Resists catastrophic failure
- Increases durability
- Improves aesthetic appearance

Endless high-tensile, rubber-sealed steel cables

- Eliminates joint failures
- Improves cable breakage resistance
- Maximizes and strengthens carcass durability

Self cleaning tread design

- Promotes lug-void cleanout for maximum traction
- Improves productivity and helps lower running costs

Forged metal cores with Trackguard technology

- Improves rolling path life
- Reduces internal component failures

Optimized tread profiles

- Provides excellent traction in any track application
- Provides low rolling resistance hence low energy consumption

*Check with your dealer for the best track choice for your application

COMPACT TRACK LOADER SPROCKETS
OEM QUALITY AND PERFORMANCE
AT AFTERMARKET PRICES

- 1 Enhanced hardening with deeper penetration**
Provides longer sprocket wear
- 2 Premium quality design and engineering**
Meets the toughest OEM specifications
- 3 Optimized geometry and design**
Ensures best fitment with tracks for longer track life

MULTI-TERRAIN LOADER TRACKS
ENHANCED DURABILITY AND PROTECTION

- 1 Single-cure technology with superior internal casing structure**
Designed to provide maximum drive lug bonding and utilisation life
- 2 Heavy duty carcass construction**
Increases lateral stability to eliminate detracking for more uptime
- 3 Versatile tread pattern matched with advanced rubber compound**
Maintains good traction throughout tread life

BEST FOR: Applications requiring extreme durability and additional penetrating traction

CAMSO
RUBBER OTT

12 MONTHS

BEST
WARRANTY
OFFER

CAMSO
STEEL OTT

24 MONTHS

CAMSO RUBBER OTT

- 1
Full rubber track reinforced with steel core and cables
- Allows smoother operation on asphalt, concrete and turf surfaces without damage or marking
- 2
Wide continuous rubber track footprint
- Increases flotation by 5 times compared to tires alone, and at least twice as much as standard steel tracks
- 3
Embedded forged metal core with engineered wing design
- Ensures strength and rigidity to avoid detracking
- 4
Internal traction rib
- Provides high traction between tire and track and prevents tire wear

CAMSO STEEL OTT

- 1
Case-hardened all-steel track construction
- Maximizes durability and performance in severe applications
- 2
Customizable sizing with variable pitch design
- Facilitates easy product selection and installation
- 3
Engineered high-traction tread bar
- Provides enhanced all-around traction especially on open side slopes and unprecedented traction on ice
- 4
Wide-void design
- Enhances debris and rock cleanout providing optimum traction on soft surfaces

*Check with your dealer for the best track choice for your application

HIGH PERFORMANCE IN THE MOST SEVERE APPLICATIONS

CARRIERS

- 1 **Straight bar tread pattern**
Modernised tread design for higher performance and productivity
- 2 **Next generation rubber compound**
Promotes even tread wearing for long, predictable tread life
- 3 **Endless steel cable technology**
Protects from joint failures to maximize uptime
- 4 **Trackguard iron core**
Improves rolling path life for reduced failures and enhanced durability

BEST WARRANTY OFFER

CAMSO

THE CAMSO DIFFERENCE

At Camso we achieved an edge on our competition by differentiating ourselves in three specific ways:

CAMSO is a leading manufacturer of OEM brands

Camso is a proud supplier of the world's best known construction brands. We have achieved our OEM positions through close collaboration, co-development, and validation with leading equipment manufacturers. Working with the OEM's has pushed our products to new levels of toughness and represents a symbol of quality and performance end-users can trust.

Many Camso products are also offered through various OEM aftermarket programs.

CAMSO offers the best warranty on the market

Actions speak louder than words. This is why we improved our terms and back all of our tracks with an industry leading non-prorated warranty on material and workmanship.

TRACK SERIES	MACHINE TYPE	MONTHS OF SERVICE		HOURS LIMIT	
		OLD	NEW	OLD	NEW
CAMSO SD series	CTL	13	18	1100	1500
	MEX	24	30	2000	2500
CAMSO HXD series	CTL	18	24	1500	2000
	MEX	36	42	3000	3500
	MTL	14	14	1200	1200
	OTT	12	12	No limit	No limit
	Steel OTT	N/A	24	N/A	No limit

CAMSO Construction tracks offer lowest operating cost solution

DURABILITY

CAMSO reduces the total cost of tracks over the machine lifetime with high quality rubber compounds.

RELIABILITY

CAMSO technology solves problems like detracking and cable breakage to increase uptime over the machine lifetime.

EXCEPTIONAL PERFORMANCE

CAMSO keeps you productive on the job-site with the right products for your application and surface type.

THE CAMSO DIFFERENCE

CAMSO tracks reduce the overall cost of ownership for the lifetime of a machine.

CAMSO DIGITAL TOOLS

CAMSO WEBSITE

Developed for those who work and play on a surface that isn't a road, Camso.co provides information and tools wherever and whenever users need them, no matter what device they're using: a phone, a tablet or a computer.

camso.co

- Product selectors for OTR tires, tracks and track systems for the Construction, Material Handling, Agriculture, and Powersports industries
- Dedicated content such as testimonials, videos, best practices and industry news
- Service and support information including warranty documents, data books and fitment guides
- Contact finder

CAMSO CONNECT

connect.camso.co or on the App Store

Camso connect, previously known as the Si (Sales Intelligence), is a tool that facilitates the explanation of the features and benefits of our Material Handling, Construction and Agricultural products.

- Accessible off-line with the iOS app version
- Complete product information, including features and benefits and product sheets
- 360 views of products and action videos
- Product support information
