

SUPPORTING YOUR PRODUCTIVITY CHALLENGES

EXTENSIVE RANGE OF PRODUCTS

We offer a large selection of specialized tires for all your ground support activities, providing the ideal solution for any vehicle and application.

BEST-IN-CLASS SERVICE

A worldwide footprint with locally adapted service: our extended distributors, dealers and partners network allows us to offer personalized support, adapted to your specific requirements.

TRUSTED BY OEMS AND INDUSTRY LEADERS

We have been working closely with OEMs and industry leaders for decades to develop tires that are tailored to your individual needs on any machine or application.

SUSTAINABILITY

With the aim of being a driving force in sustainable mobility, our vision for the next thirty years is that by 2050, our tires will be entirely produced with sustainable materials and that every effort is made, across every industry stakeholder, to ensure that 100% of end of life tires are recycled or reused.

AIRPORT GROUND SUPPORT HANDLING

TIRE RANGE AND SERVICES

SAFE AIRPORT GROUND SUPPORT HANDLING, ON TIME AND ON BUDGET

At Michelin, with Camso, we accelerate your activities for more efficiency. As off-the-road mobility niche specialists, we developed our expertise in the field, with our clients and partners, understanding and foreseeing the challenges of today and tomorrow's airport ground support handling industry.

Our products are engineered and manufactured with rigorous quality standards to guarantee the safety and reliability of your operations. Be it radial, bias, solid resilient or press-on tires, we have the technology and the range to match your requirements.

HELPING GROUND SUPPORT HANDLERS MEET THEIR PUNCTUALITY AND PRODUCTIVITY CHALLENGES

Our team will help you face the challenges of your daily activities via a single point of contact, allowing us to provide a tailored approach that covers entirely your specific needs.

Just as our product offer, our service coverage is available worldwide when you really need it, enabling your operations to continue on time and at the lowest operating cost. From fueling, to aircraft towing and baggage and passenger handling, you name it -

WE HANDLE IT.

INDUSTRY STANDARD

UNDER SPECIFIC CONDITIONS

Other type of machines are also fitted with solid and industrial pneumatic tires, for example: sweepers, carts, special custom made equipment, roller coasters, drum drives, etc. For Rubber Tire Gantry tires and other specialty equipment, please consult your tire dealer. Please contact your local representative or technical department for more support.

“ We’re impressed with the dedication of your development team in designing not just a long-life solution, but one that tackles the specific challenges of airport ground support handling applications. With your tire solutions, we’re confident customers will be equipped with a performing product that will lower their overall operating costs.

— Yves Crespel, Communication Director at TLD
